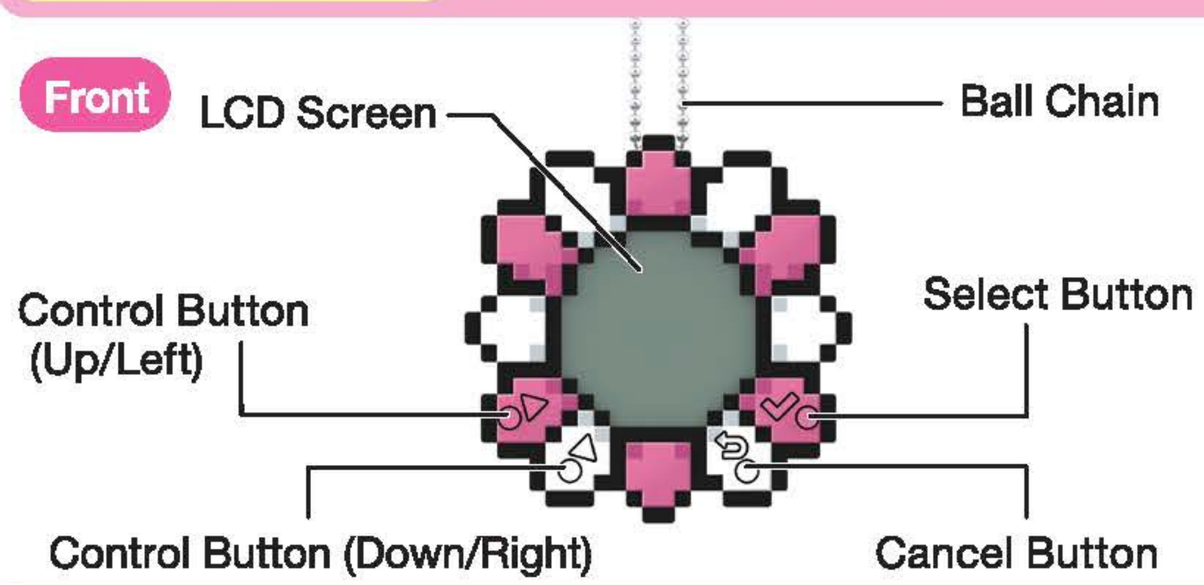
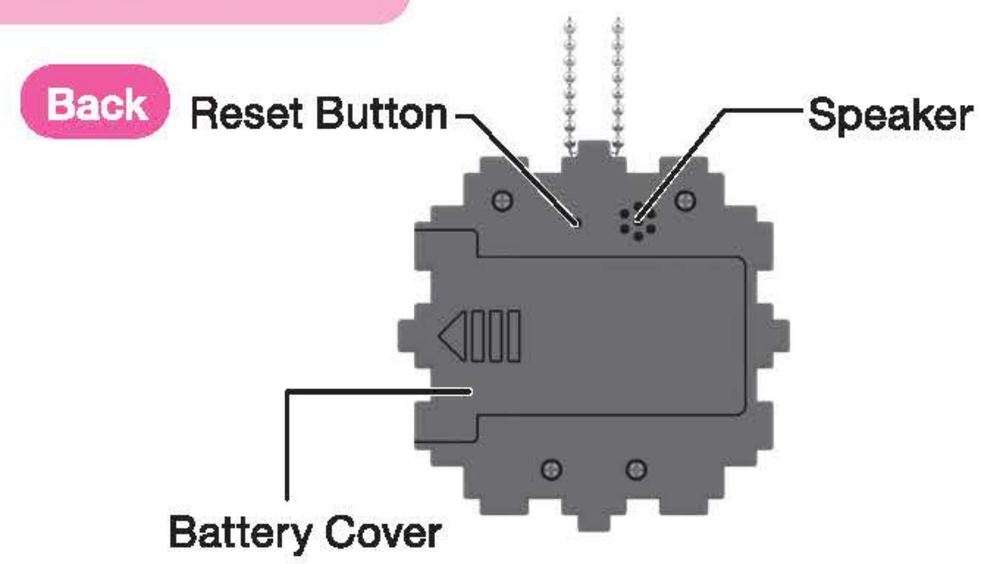
Product Overview

Contents included　•Flower Go Walk x 1　•Ball Chain x 1　•User's Manual x 1



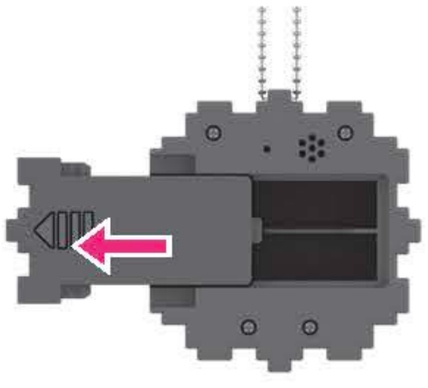


Auto Sleep　The device will go into sleep mode (energy-saving mode) after being left untouched for a minute.
You can return to the main screen by pressing any button.

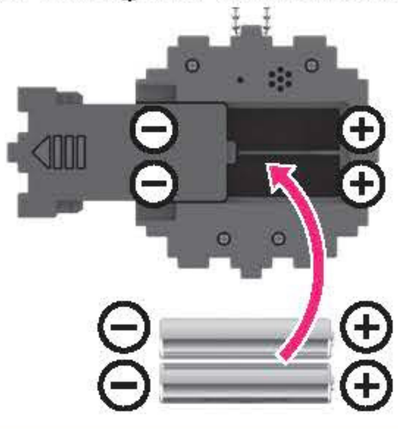
Reset　The data will reset once you press the Reset Button.
*Saved data will not be erased. Press it after you replace the batteries or if there is a problem with the sound.

Installing Batteries

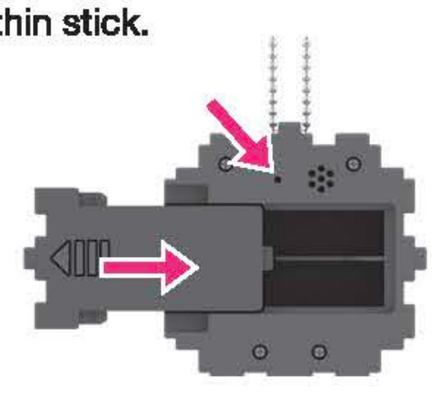
1 Open the battery cover located on the back of the device by sliding it to the left.



2 Insert the AAA alkaline batteries included in the package, making sure the (+) and (-) ends are facing the correct directions.



3 Close the battery cover and press the Reset Button using a thin stick.



*Saved data will not be erased when you press the Reset Button.

Once the device is out of battery, the screen shown on the right will appear. Replace the batteries with new AAA alkaline batteries.

Initial Setting

Let's set your device before playing the game!

Choose the Language

Choose your language by using the Control Buttons and confirm by pressing Select Button.

Buttons

Press the buttons as shown on the screen, and you will move on to the next procedure.

Control Button (Up/Left)

Control Button (Down/Right)

Select Button

Cancel Button

Enter Your Name

You can enter up to 5 characters for your name. After entry, press OK and then the Select button.

Control Button	Scroll letters
Cancel Button	Back one character
Select Button	Select letter

*You can use less than 5 characters.
*You can change this later from "Settings" → "User" .

Set the Time

First, choose AM or PM based on the current time.

Next, enter the hours.

Then, enter the minutes.

Control Button	Scroll letters/numbers
Cancel Button	Back one entry
Select Button	Select letter/number

Confirm Entry

Please check your username and time settings.
If everything is okay, press the Select button.

Choose "Yes" with the Control button, then press Select.

You are all set! Continue to "How to Play"!

How to Play

Let's grow your Flower so you can spend your time with it!

Attention: Until your Flower blooms, the only available option is to water the seed.

Plant the Seed

Plant a seed by pressing the Select Button.

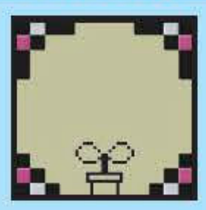
Water Your Seed

Press the Select button, and give your Flower water until it blooms.

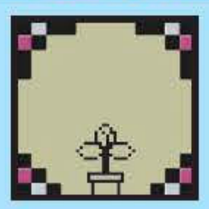
When the water mark is full, if you give it more water, it will grow.

The Growth of Flower If you water it enough until it shines, Flower will grow in four stages.

The sprout appears



The bud appears



The stem grows

Flower blooms

Name Your Flower

You can enter up to 5 characters for your Flower's name. After entry, press OK and then the Select button.

Control Button	Scroll letters
Cancel Button	Back one character
Select Button	Select letter

*You can use less than 5 characters.
*You will be able to change the name later from "Settings" → "Flower".

Bloom your Flower by traveling to many places together!

KK Navigator

The KK Navigator will teach you how to play. Follow the instructions, and you'll unlock more game modes.

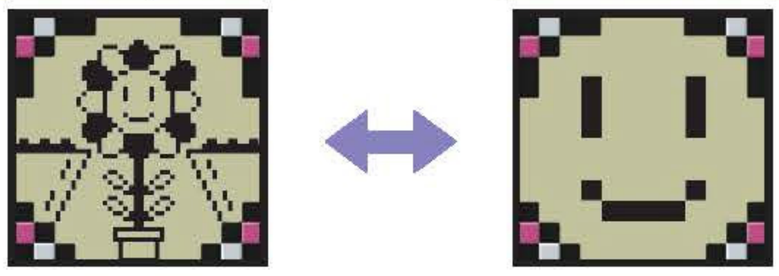
Screen Explanation

There are 5 modes in Flower Go Walk.

Main Screen　This is the screen that usually displays.

You can change the view based on your mood!

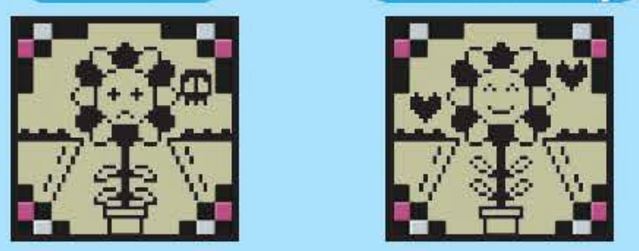
Full-body Mode ↔ Close-up Mode



You can change this in “Settings” → “Mode.”

You can see how your Flower is doing on the Main Screen.

When Sick / When Healthy



Press the Select or Control button.

Menu Screen　Use the Select button to change modes, and Control to enter a mode.

- Travel: Go out with your Flower!
- Status: Check your Flower’s health and your step count!
- Care: Take care of your Flower!
- Memories: Check your quest logs!
- Settings: Control various settings!

About Different Modes

Travel　Let’s go on a journey with Flower to various locations!

Let’s aim to travel to all 100 destinations!

Quest

You can travel to various locations.
Along the way, you might meet friends, or you might battle.

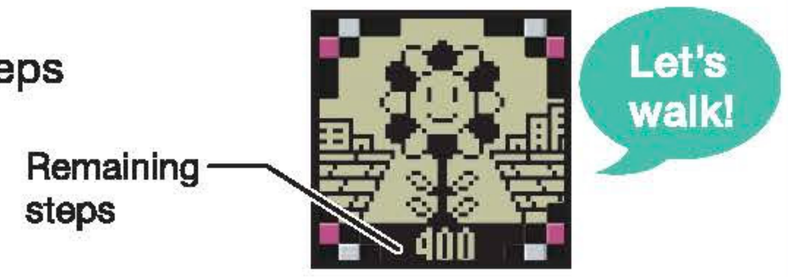
1 Choose where you want to go with your Flower.
5 Use the Select button to choose one of five options, then press Control.

*At first, you can only choose Cute Café or Restaurant.
As you clear Quests, you will unlock additional areas.
*To revisit places you’ve been before, choose “Memories” → “Album” .

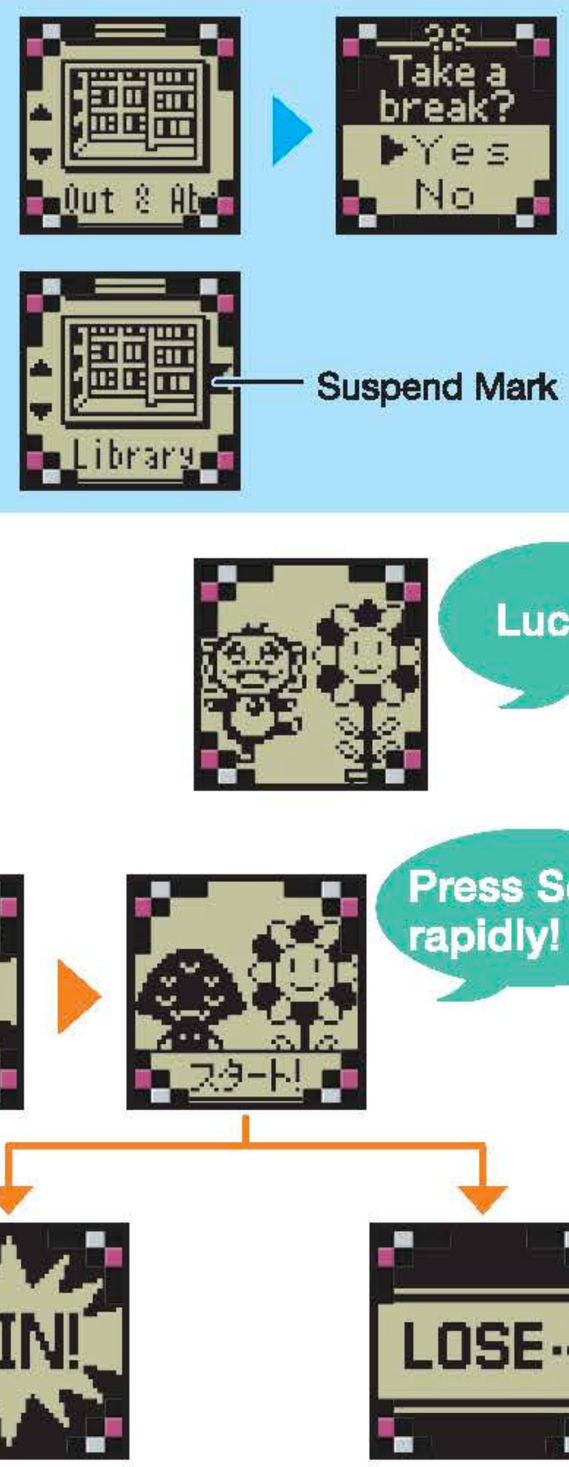
If you can’t go on a Quest, please check the following:

- ○ Sleep time ··· make sure you go out between 4 am and 9:59 pm.
- ○ Health check ··· if your Flower is sick, heal it via “Travel” → “Hospital”.
- ○ HP level ··· If your Flower has no HP, feed it via “Care” → “Food”.

2 When you depart on a quest, you will see the number of steps remaining until your goal.
By taking your Flower on an actual walk, the step count will decrease and you will reach your goal.



Suspending Travel
Pressing "Travel" from the Menu screen will pause the trip.
A suspend mark will show on the Quest, and your step data will be saved, so you can resume the Quest later.



*Step counts aren't saved in the following cases:
- If you go to the Hospital or Shop.
- If you restart a Quest from the Album screen.

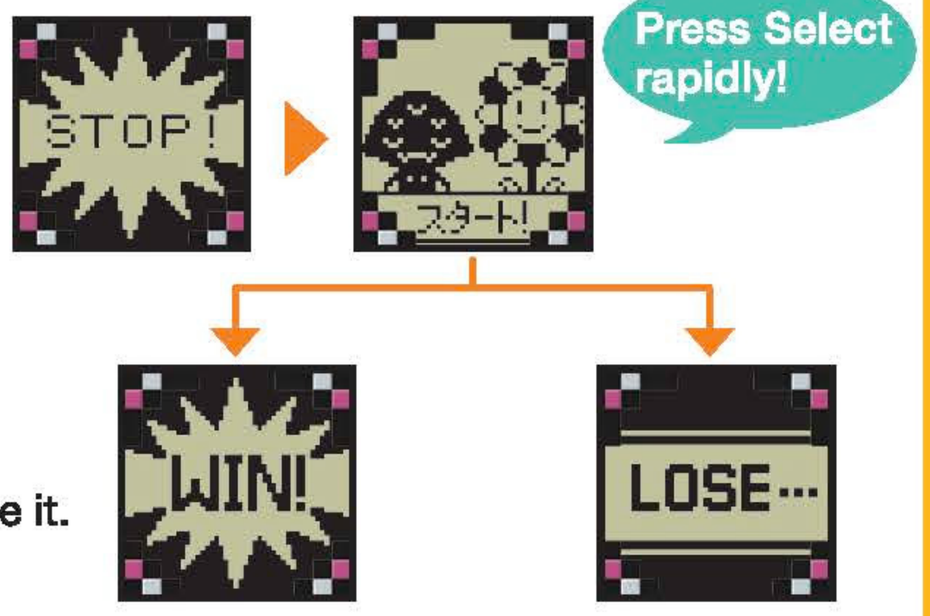
You Can Also Meet Friends!

During a Quest, you will sometimes come across friends who will give you coins and items.

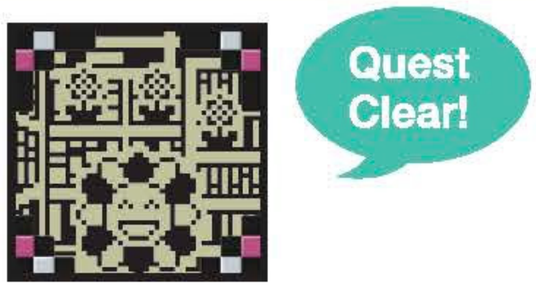
You Are Blocked! It's Time to Fight!

During a Quest, sometimes an enemy will stand in your way. Follow the onscreen instructions, and press Select rapidly to fight.

If you win, you can get coins and items.
If you lose, your HP goes to 0 and you cannot continue the Quest. Feed your Flower via the Care menu to revive it.



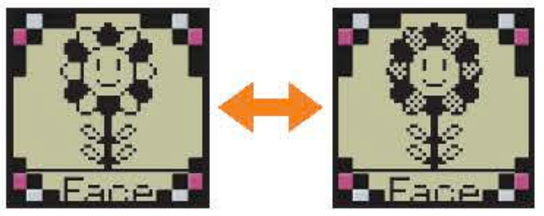
3 When you reach the goal, flowers will bloom.
These flowers will become a background, and you can take a commemorative picture.
The pictures are saved in "Memories" → "Album".



You Can Meet Friendly Flowers!

On certain Quests, you can meet other Flowers.
Sometimes you'll even meet Rare Flowers! By cross-pollinating with them, you can change the way your Flower looks.

You can change the look of your Flower by choosing to cross-pollinate.
Use the Select button to choose the parts you want, in order of face, eyes, mouth, and body, and press the Control button.



* If you cross-pollinate with a Rare Flower, your Flower's entire body will change to the new form.
* If you change to a Rare form, you won't be able to cross-pollinate with normal Flowers.
In order to do so, go to the Hospital and change back to your normal form.

Get Special Rewards for Completing Quests!

Finishing quests will grant you coins and items.

Hospital

Hospitals can restore your Flower to its original state from being ill or from its Rare Flower form.

At the Hospital, use the Control button to choose "Care" or "Return".

It costs 500 coins to return your Flower to its original form.
If you don't have enough coins, earn some via Quests.

Shop

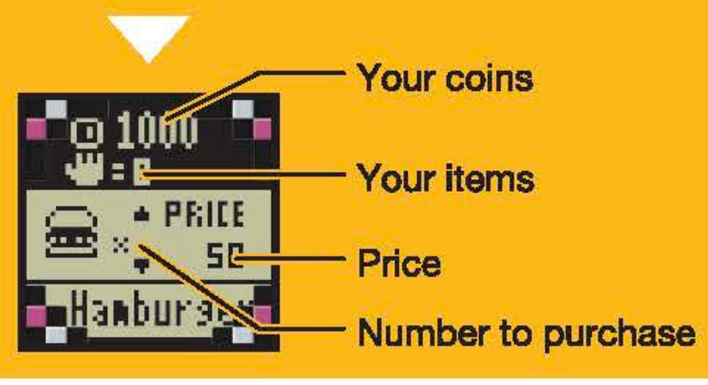
You can buy food and items with coins.

In the Shop, use the Select button to choose food or items, and purchase with the Control button. After selecting what you want to buy, you can choose the amount with the Select button, and finalize the purchase with the Control button.

*You need coins to buy things. If you don't have enough, earn some via Quests.
*You can hold up to 9 each of food and items.

Food

Item

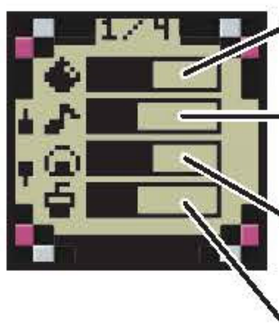


Status

Check your Flower's health and your step count!

Vitals

Check the condition of your Flower.
Use the Select button to choose what you want to check.



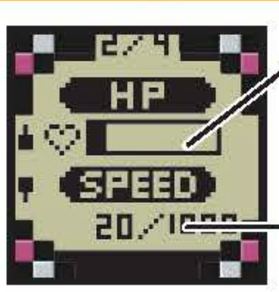
Water Level The Flower wilts if this goes to 0, so be sure to give it plenty of water.

Mood This goes down if you don't treat your Flower well, so be sure to take good care of it.

Hunger This decreases when your Flower is hungry.
Be sure to feed it from time to time.

Thirst Decreases when you give your Flower food, so it' s important to hydrate as well.

Press Select to change



HP Hit Points decrease if you lose in battle, and if HP goes to 0, you cannot go on Quests. Food restores HP.

Speed You can raise this by playing the game in "Care" → "Training" , and become faster in Quest battles.

Press Select to change

Power You can raise this by playing the game in "Care" → "Training" , and become stronger in Quest battles.

Luck Raises when you feed your Flower. Luck makes it easier to find rare items during Quests.

Press Select to change

Flower's name

Flower's height

The Flower grows taller as you feed it, give it water, and take it for walks.

Check your Flower's condition regularly, and help it grow tall and strong!

Walk Steps

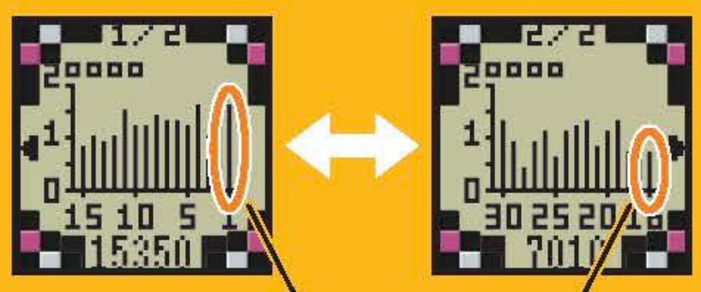
Check "Today's Steps" , "Total Steps" , and "Steps for the Past 30 Days" .

Today's Steps

Total Steps

Press the Select button.

Step Counts from the Past 30 Days



Cursor (Flashing)

30 days of step count data is saved, and you can use the Select button to move the cursor and see details.

Data from before 30 days is automatically deleted.

Time

Check the current time.

Care

Look after your Flower by giving them water and food!

Take good care of your Flower and strengthen your bond!

Water

UP!

Give water to raise your Water Level.

Touch

UP!

Petting your Flower raises its Mood.

Food

UP! UP!

Give food to relieve Hunger.

Give food to quench Thirst.

Play

UP!

Playing with toys raises your Flower's Mood.

If the Flower seems upset, try a different Care method.

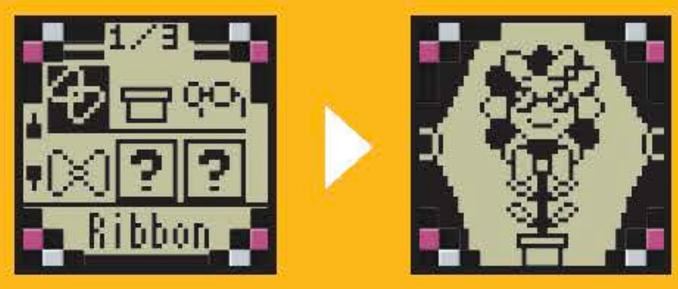
Dress Up

UP!

Wear some of the items you got during Quests to improve your Mood.

Choose what you want your Flower to wear with the Select button, and your Flower will get changed.

*To remove an item, select it again.



If you are using a Rare Flower form, you cannot wear other items.

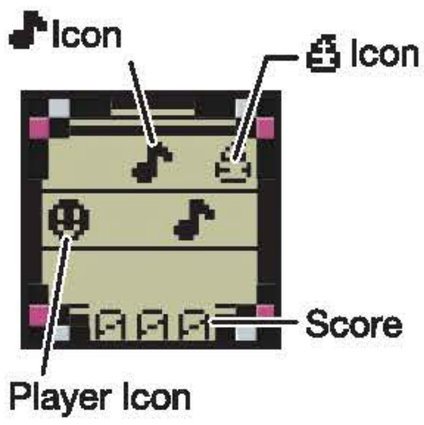
Training

Train your Flower through mini games to increase their “power” and “speed”.

Happy Catch

SPEED UP!

Increase your speed by catching the falling musical notes!

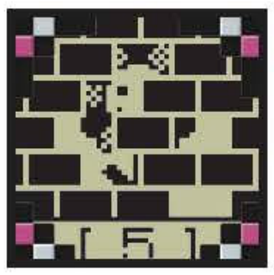


Use the Select button to move the ● up and down, and catch the ♪ symbols. If you clear the game, your Flower’s speed will increase. Miss the notes or catch a 💰 icon, and it’s game over.

Block Crash

POWER UP!

Tap the button rapidly to attack! Break all the blocks and power up!



After the Start prompt, break the blocks by repeatedly tapping the Control button.
If you break all the blocks under the time limit, your Flower will get stronger.

Increasing your Speed and Power makes it easier to win in Quest battles!

Memories

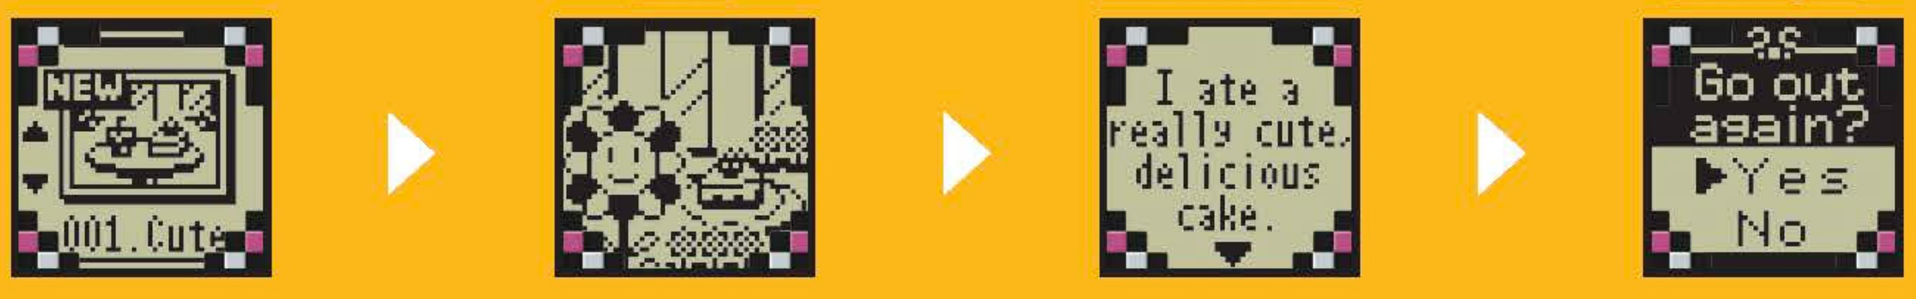
Take a look at the places you’ve gone and the Flowers you met!

Album

Look at pictures and memories of the places you went for Quests.

Choose a location with Control, and you can see the picture that was taken there.

Press Control again to see comments from the Flower.



If you press Control again, the next screen will give you the option to replay the Quest.
Choose Yes and press the Control button to do so.

If you are already on a Quest, you cannot use this option.

Friends

You can see all the friendly Flowers you encountered on your “Quests”.

Souvenir

Check souvenirs you received through “Quests”.

Settings

Manage your Flower Go Walk through various settings and by switching through different modes!

Sound

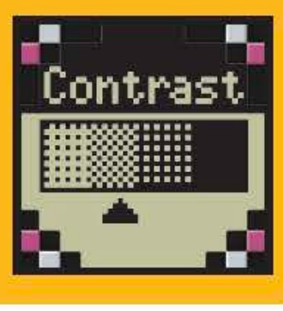
Choose from four sound levels.

Language

Switch language to either Japanese or English.

Contrast

There are four levels of contrast available.



Display

Set the screen to either “ON” ↔ “OFF” during sleep mode.

*It is initially set to “OFF”.

Time

Reset the time here.

Data Reset

Delete all your data and start over from the beginning.
You will see a confirmation prompt, and agreeing will delete all user data.

*Data such as “Memories” will be erased as well.
*You cannot recover the data once it is erased.

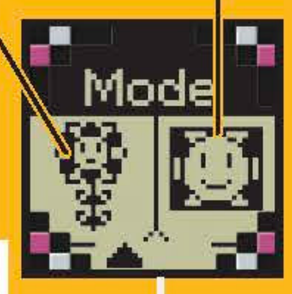
User

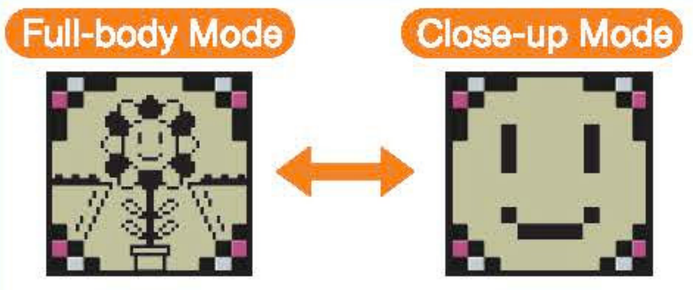
Change your username with this option.

Mode

Change the display mode for the main screen.

*It is initially set to “Full-body Mode”.





Flower

Change your Flower’s name here.

If this happens

There is a mark on your Flower.

Your Flower is sick. Choose “Travel” → “Hospital” to take care of it.

You want to change the appearance back from the Rare Flower form.

Select “Travel”→ “Hospital" to change your Flower back to its original form.

You want to restore the appearance of the withered Flower.

Meet and cross-pollinate with other Flowers via “Travel” → “Quest”.

You can’t go on a “Quest”.

Flower is either sick or is left with 0 HP.
Either go to the “Hospital” to cure the illness or feed it from “Care”.

You want to return to a specific location from a “Quest”.

You can go on previous “Quest” from “Memories” → “Album” .

Your Flower doesn’t turn into a Rare Flower.

Even after pollinating with a Rare Flower, sometimes your Flower doesn’t turn into a Rare Flower.
In that case, try again after walking for a while.

Your Flower won’t eat.

Use “Travel” → “Hospital” and take care of your Flower.
If it still won’t eat, try giving it different food or beverages.

The screen is blank, or the sound isn’ t working properly.

Press the Reset Button found on the back. If that doesn’t help, replace the batteries.

The game won’ t turn on.

Follow the “Installing Batteries” section and replace the batteries.
Always use brand new alkaline batteries and never mix with old batteries or different types of batteries.
